Comment Text :

1 [---> I am writing to voice my opposition to the proposed nuclear waste site at yucca mountain. I am opposed to this plan not only because of the environmental damage that would result from such a plan but also because of the inherent physical danger that could very likely affect the populace e.g. the danger of damage from cross country transportation of the nuclear waste as well as the danger when this waste travels through heavily populated areas such as Las Vegas, Nevada.

This issue is not one where a decision maker can say that Yucca Mountain is the least dangerous of all other sites because I would be opposed to any site bearing the burden of this potentially cataclysmic plan.]
